HB4145

Dear Senators,

Please listen to your constituents, the testimony.... as in all of the testimony. If you can't be true to the people and be our representatives you have no legitimate seat in your office. This bill should not have passed the house for multiple reasons. More than 73% of the testimony submitted with this bill in the house was in opposition. It looks even higher now that it has illegitimately passed through all the way to your hands. Not only is this a horrible bill multiple issues that will not improve anyones safety and will put more people in dangerous situations, this bill was fraudulently passed in the house. A good Democrat Rep was harrassed by the Vice Chair in a total abuse of power. This is disgusting and if you vote yes on this bill you truly do not stand for anything other than corruption. Please correct the wrong and vote NO on HB 4145.

Thank you
