Why are we here again?. These bills do nothing to stop crime as criminals do not follow laws that are already on the books and they certainly aren't going to start following laws just because they are new. This bill is unconstitutional a person should not have to apply for a permit to exercise a constitutional right. This bill puts undue burden on people of lower income to exercise their constitutional right. This bill should have never made it past the house on the first vote. The actions of Representative Krofp was totally unacceptable and should have died right there. Please oppose this legislation.
