Enough is enough, you are wanting us to pay an arm and a leg to have our constitutional rights! Are you going to start charging 150\$ for a protest permit, also make people wait 60 days before they receive sad protest permit? Because all the left does if protest and riot. You would make millions in the first year off of them! This state is nothing but a bunch of democrats that do not care about any other person, who does not think or feel the way they do. Life on the east side of the cascades is not the same as the west, and we are tired of our lives being so impacted by all of the people who have no idea what life outside of the city is like. Drugs have been banned forever, well until brown decided to decriminalize them and how did that work out? But being banned or not people still got drugs, did drugs , and died from drugs. Guns are a tool, guns are an object that without a person they sit in a corner and do nothing. Not to mention 90% of the people doing harm are people with mental health issues, like the trans genders, or people falling into that category. More laws will not do a dang thing except affect the ones who already follow the laws in place. Like murder being illegal, using a firearm to do any bodily harm being illegal. People who do not care about laws, will still inflict harm on people, all you are doing is setting more people up to be victims.
