

Oregon Rules Committee, both Democrats and especially our capitulated Republicans:

As role models you should be ashamed of your illogical attacks on all of your Oregon constituent's God-Given rights to defend ourselves from the recitivent predators your policies are refusing to incarcerate. Now, should we have to justifiably defend ourselves or our families from the horror of unnecessary violence, the perpetrator is considered the victim in our courts as we unjustly pay the price..

I struggle with the only reasonable and logical reason for this....that our leaders are fostering chaos so we will give up our rights for protection from an unnecessary problem you have engineered for us.

I plead for you to dispel the political ignorance and return to the common sense of cooperative logic. Remember Tom McCall? Okay, I know Mayberry is not coming back. But legislation used to make sense in our state. It's really as simple as considering all of us who you represent when making your decisions while doing what you can to restore accountability. Because our future depends on it.

Thank you for your attention.
