

Submitter: Christopher De Martini  
On Behalf Of: Citizens of the United States  
Committee: Senate Committee On Rules  
Measure, Appointment or Topic: HB4145

This bill would instantly make criminals of law abiding citizens who have legally purchased components and retroactively punishes citizens.

Guilt is assumed and innocence must be proven under the current writing of the law.

The pricing updates disproportionately effects those of lower socioeconomic standing and targets POC in a clearly racially motivated assault

The fact that this cannot be challenged in any court of law except those in the dark blue county of Marion County is an obvious and overt acknowledgement that this law would not stand up in a unbiased court of law. This is a shameful and truly despicable act of a politician ramming through a law and attempting to subvert the three branches of government by legislating their way out of a court matter, which has and will continue to find this law illegal.

The hypocrisy is evident as you call for de-policing yet the police are the only ones who can be permitted to possess certain critical elements of a firearm.

The proponents of this law and 114 have been funded by out of state NGOs that have endless supplies of money, while the true grass efforts are those trying to stop this attempt at stripping our rights away.

The main house proponent of 114 is a bully, a racist and a Misogynist who strong-arms even his fellow congressmen and women, bringing one to tears on the floor to vote his way.

I am opposed to this update and BM114 as a whole.
