

Submitter: Andrew Farley

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

4145 is another effort to ensure that law-abiding Oregonians are denied the ability to acquire firearms. Due to massive hikes in the fees that will be required to request a "permit" to exercise a God-given, constitutionally guaranteed "right," it is also a slap in the face to Oregon's low-income population. HB 4145 requires you to jump through expensive hoops to own a firearm and will punish you if you own a magazine. But it does not even provide the hoops.
