Rules committee...

Read the rules. Your aggressing on the 2nd Amendment.

Your aggressing on the right of the people to own property they legally purchased.

Maybe legislation should only pass if it finds bi partisanship support based on the make up of the legislative body.

You can think me rude... and that is ok.

But the Super Majority of the Oregon legislature is abusing it's privilege.

How on earth can you regulate Mag capacity based on a arbitrary date ? ( you simply can't ).

You know in 2025 Special Session the Democrat House Caucus tried 5 times to get quorum...

Someone in the balcony threw foam clown noses down on the Senate floor and when OSP told them they could not do that...

The person said those clown noses can't hurt anyone and besides... they are a bunch of clowns.

Today and again in party line votes the Short session finds the Legislature passing legislation that defies logic...

Moreso... making legislation on a matter in the hands of the Courts (READ THE RULES... WHAT EVER HAPPENED TO SEPARATION OF POWERS) !

People have no respect for the process, because the process has no respect for RULE OF LAW, THE CONSTITUTION OR THE FREEDOM OF LAWFUL CITIZENS.

When Governors let convicted hard criminals out of our prisons or reduce sentencing by the 1,000's... and based on repeat offenses documented in statistic charts.

I have to say kill SB 4145.
