

Submitter: Jeff Mack

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Every year we go through this. Would be easier to swallow if you just said you hate guns verses the lies of safety.

First, you have the same items being reviewed by the Supreme Court and yet push another unconstitutional bill through. End it now and vote no!

There is no funding for these programs and puts burdens on citizens and local governments. The state already complains they have no money but keeps adding laws and bills with no means for funding.

Quit punishing law abiding citizens. The state already doesn't enforce the laws it has, but adds more to make average citizens into criminals. Focus on the real problem of crime and mental health.

Lastly after the stunt pulled by Kropf in committee, this shouldn't even be here. You are allowed a dictator to change a vote.

End this silliness, vote no and start focusing on real issues.
