I am from a family of hunters. Wild game is part of our food supply. We also are involved in agriculture and we shoot predators of our livestock. We practice shooting at targets (it is a sport in the Olympics). Guns are not the problem—just like cars are not the problem!! The people misusing them are the problem. Restrict marijuana, drugs, alcohol, excessive food, criminals, child abusers— they kill people!! Lets not choose guns as the scapegoat for societies ills!!
