

Submitter: Robert Brogoitti

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

The annual legislative session in Oregon continues to raise concerns among citizens regarding increasing taxation and perceived encroachments on constitutional protections. The state constitution explicitly outlines fundamental rights and principles, yet ongoing legal and policy developments appear to challenge these established safeguards. Residents remain vigilant about preserving the constitutional framework that has historically defined Oregon's governance and individual liberties. Please vote no on HB4145.
