

Submitter: Riley Halvorson

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I personally voted yes on this measure previously to create stricter gun laws to keep our communities safer. By allowing cops to have access to things that the citizens don't have access too, especially in the political climate we are in now, is a middle finger to Oregonians. This allows exemptions to not only active police but ANYONE who has been an officer, including those who have been fired for violent acts. This is not what Oregonians voted for. If you really want to change a bill like this then the people deserve a chance to vote on it again.
