

Submitter: Eric Whittier

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Dear State Senators,

I am deeply concerned that if you pass HB4145 that you are creating two classes of citizens in Oregon with regard to our second amendment rights. If you are going to limit magazines, limit them for everyone or not at all. Why should ICE thugs be allowed to carry 30rd ARs while off duty? What makes them more important than the rest of your constituents. Furthermore you should not be limiting our rights at all in these trying times with a fascist government in control of the white house. You are making it harder for your constituents to protect themselves and keep their communities safe. I am disappointed that this is what you choose to spend your time doing and you can no longer count on my vote as a lifelong democratic voter. I hope your primary challengers who will stand up for our rights are successful.

Vote NO on HB 4145.

-Eric Whittier
