Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

4145 is another effort on the part of Oregon Democrats to ensure that law-abiding Oregonians are denied the ability to acquire firearms. Due to massive hikes in the fees that will be required to request a "permit" to exercise a God-given, constitutionally guaranteed "right," it is also a slap in the face to Oregon's low-income population. A population the Democrats are determined to enlarge at every opportunity.

HB 4145 requires you to jump through expensive hoops to own a firearm and will punish you if you own a magazine. But it does not even provide the hoops.

The ownership of guns and their magazines is a God given, and constitutional right for every citizen of America! This has been proven out by the SCOTUS numerous times. You must fight against this bill with all your might! Do the right thing and please put a stop to this lunacy.

This bill is against the law of America and the constitution and harms our rights for self protection! If you pass this bill, you are breaking the constitutional laws and rights of the people you have been elected by, here in Oregon!
