As a native-born rural Oregonian, I urge a "NO" vote on this bill.

While gun-control is a positive step, generally, this is a wolf in sheep's clothing.

We do NOT need another experiment in the consequences of law enforcement given loose rein, and this bill does exactly that. The utterly needless carve-outs for even FORMER law enforcement, et al are insanity.

What on earth do these high-capacity magazines and PERMITLESS weapons do to improve Oregon? Not a thing, and they absolutely will statistically lead to more American gun deaths.

This should be an OBVIOUS NO VOTE. Deny the salivating gun-nuts in uniform this carte blanche to further endanger our formerly sane society, already sinking under the weight of its lead.
