

Submitter: Neal Hazel

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I, as an Oregon resident for over 73 years, whole heartedly, oppose this most egregious, class action, unfair and unconstitutional OREGON HB4145 bill.

To differentiat a class of people as allowable and some not, is wrong. To legislatively disallow citizens the open right of judicial freedom by designating which court they are allowed to procure their rights in , is also not legally right in a Republic. The existing laws , State , and Federally do NOT allow a registry of individual gun owners. A protected right for a legal citizens. And a protection from government intrusion of personal rights of an honest citizen,

No where in this bill is there any honest effect of reducing crime or ciminal activity. Doubling all fees and allowing an agency uncontrolled ability to set fees is an obvious politcal, not justifiable rule.

And , once again, the use of the "emergancy clause" is an obvious effort to subort the rights of the citizenry to challaenge a un fair piece of legislation.

I adamently OPPOSE THIS BILL HB4145 HB4145A.

Pleae use your time in this legislative session to do something that actually represents and protects the legal citizens of Oregon.

Respectively,
Neal Hazel
