

Submitter: Nancie Ryan
On Behalf Of: Oregonians for 2A Rights
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

There are more deaths from drug overdoses in our state per day, week, month or year than GUN violence. If a person's mindset is to take their own life they WILL regardless of how. Guns do no harm.

The real threat to democracy is not just the person who abuses his authority to change the outcome of a vote, but those that go along with the abuse to pass it into law!

This vote appears to be only happening because of a hostile work environment. That is deeply concerning to me.

Where is the justice for Rep. Tran being manipulated into changing her vote, she deserves to feel safe in her role in public service and not feel she needs play along to get along. This feels like institutional pressure and institutional failure.

And here's the bottom line: abusive/hostile men usually do not believe they are abusive. It usually comes as a big shock to them that they are. Rep. Kroft needs reprimanded for his undeniable aggressive behavior!
