

Submitter: Caleb Stewart

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Not only is it entirely unconstitutional to charge a fee for access to a constitutional liberty, but will also set a precedent that LEO (Law Enforcement Officers) deserve more personal liberties than others essentially infantilizing the civilian population. With the literal hundreds of thousands of 10+ round magazines in Oregon this bill will create and even larger "black market" criminalizing citizens who by any other means are law abiding. If your freedom of speech was suddenly subjected to equally insane measures you would be quite upset at your overreaching government when you have to pay and wait 60 days before you can go protest in public.

Do not oppose this bill because of you or me, oppose this bill because of the overwhelming call of a majority of Oregonians against it. I hope that you will do your job and vote in accordance with the views of your fellow men and women, not with the views and pressure of governing entities.
