HB4145

Dear Oregon Senate,

As an Oregonian I stand firmly Opposed to this work around to Measure 114. You see, I am a 65 year old female who was present at a NYE Gathering in Prineville about 7 years ago. 5 inches and I was the one getting shot by an angry idiot. Since that day I have Trained, Practiced and participated in Rallies to Protect Individuals Legal Gun Rights.

Limiting what I can possess as Protection, Increasing Fees on Legal Firearm Owners, Lessing Penalties on Illegal Firearm users who commit Crimes is not Protecting your Community. It also is a burden on low income people who tend to be most vulnerable to Crime.

I also have concerns about a "disappearing registry" with our Information heading to the Federal Level.

The Oregon State Constitution upholds our US Constitutions 2A Rights at present. That should never change.

The conduct of the Chair, Kropf, though we are part of his district, is disgusting. That sort of Bullying in the middle of a Vote, that he could see would result in a Tie, on a Woman no less, should earn him removal.

Underhanded Politics has No Place in Oregon and passing Bills that leave Oregon Citizen unable to Protect themselves, while Criminals are just turned back onto the streets, is reckless.

I stand Opposed!
