

Submitter: Linda Gregory

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

My name is Linda Gregory of West Linn, Oregon. I am in support of HB 4145 feeling strongly about closing the gaps in obtaining gun permits. Transferring a firearm should be better monitored and requiring legal permits is one way of managing those sales. My husband and I have been gun owners which is our right, but neither of us can see any need for large capacity magazines. Our family experienced gun violence that resulted in our grandson having lifelong mental health challenges. It has now been five years for him, and he is still receiving therapy.

Thorough background checks, consistent judicial review, and training are simple things to help to prioritize public safety of the innocent while still respecting our constitutional rights.

Please move HB 4145 forward. Thank you for your consideration

Sincerely

Linda Gregory
