

Submitter: David VanDeWalle

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Please oppose this bill that does nothing to make any of us safer. This bill only makes more rules and regulations for honest law abiding citizens to jump through. We are not the problem here. The 2nd amendment gives we the people the right to own firearms. This bill will make it impossible to buy a gun in this state until further notice. Please do not let this happen. Use the current laws we have to arrest and prosecute criminals who use guns to commit crimes. Currently laws already ban mentally unstable people from owning firearms as well as criminals. Use those laws to protect us. New laws will not make criminals or mentally unstable people all of a sudden follow the laws and rules.

Thank you for your time.

Sincerely

David VanDeWalle
