Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

HB4145

I oppose this bill. do not support it. this takes my right to a fair chance at protecting my daughters my wife my family. and put them in harms way! this is not a common sence law you are working with. crime doesnt work on comon sence. they have no regards to the current laws what makes you think this will change there minds. it was just on the news that a fellow who know he shount have firearms was caught with them, proving they have no regards to the law. while we the (good guys) get ours legaly and carry legaly and this will hurt that. most carry firearms that are carried do not have the option to change the magizine size to a smaller one 10 or less rounds, so now its a added burden for us to go and purches another firearm wait even longer just to protect our loved one and self from the sensless criminals out on the streets and there is not enough police to protect everyone as a body guard.

it will turn law abiding firearm owners into criminals overnight and will not stop the real problem. our elected officials are not blaming cars for the deaths but are blaming the driver, the same is said for fire arms. criminals will get there hands on what ever they need to do the crime.

please use your common sence and strike down this bill and actually help the oregon residents.
