

Submitter: Brooke Smith

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

My name is Brooke Smith. I am a lifelong Oregonian, business owner, gun owner, instructor of hunting, board member of the ochoco chapter of the Oregon Hunters Association and board member of the Prineville Chamber of Commerce.

HB4145 is concerning in many ways. It does not fix any issues nor is it going to keep Oregonians any safer. We have a mental health and drug issue not a gun issue. As with anything else the more that we educate people the better we are. Rather than saying that Guns are bad. We need to teach people how to safely use them and respect them.

Thank you for your time.

Brooke Smith
