

Submitter: Michael Johnson
On Behalf Of: Our Second Amendment
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

To the Oregon Senate,

Just another concerned citizen asking you to put a stop to the anti-second amendment climate coming out of Salem.

As you know our right to own and carry and hunt has been on the chopping block and has become increasingly expensive for the average citizen to afford. A constitutionally protected right should not be held in such contempt by our law-makers.

Please kill HB 4145. Thank you.
