

Submitter: Christina Silver

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Allowing this to even get to the Senate committee is a disgrace. If you support this bill, you are taking away the rights of LAW ABIDING OREGONIANS, allowing abuse of process and positions, and dismissing the voice of Oregonians.

The HB should not allow the giving of our fingerprints to the federal government, we should have the ability to contest a denied permit, and it should have died in the House due to the abuse of committee member.

Members of the Senate need to stand up for Oregonians! Do not disregard our voices or taking away our fundamental rights simply because you do not have the ability to solve the issue at hand; violence from criminals and the mentally unstable.

Respectfully,

Christina Silver
Newberg, OR
