Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

Good day to you all. Thank you for taking the time to read testimony. This whole situation is quite disturbing, this measure should have never gotten this far. Should have died in the house from the beginning when kropf changed the rules and intimidated another member to change her vote mid vote. No accountability! Not to mention this measure is 100% unconstitutional on the federal and state level. Another bill to restrict the rights of and burden oregonians yet again. There is so much wrong with this bill. People say it will save lives? No it wont. Criminals dont follow the law, period. All this does is hurt law abiding oregonians who actually follow the rules. As far as suicide goes, yes its heart breaking and horrible what the families have to go through. My thoughts and prayers are with the family's that have to go through that situation. All this is doing is slapping something at the wall to restrict gun owners using emotions rather than finding a solution to a mental health problem. And it is a mental health problem, not a gun problem! For these reasons my family and i oppose hb4145. Thank you for your time.
