

Submitter: Douglas and Bambi Brininstool
On Behalf Of: Our Cul de Sac
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

Please be assured, I am an Oregonian, and a republican, as is my family of 8.

We live in Happy Valley, and have, for almost 30 years, back to the good old days when Oregon was decent, more conservative, and law abiding. There was hardly any gun crime, yet many, many people owned guns. Hunting and self protection were the norms, and the rights, held by all. Yet we knew, even back then, guns didn't commit crimes, people with mental health issues did. And we were smart enough to know this, and keep our rights intact while trying to help individuals who had those mental health issues. But something changed.

We are now at a tipping point!

It is our constitutional right to own guns and ammunition and magazines with whatever count we desire, and still for hunting, and self protection! These rights cannot, and should not ever be infringed upon! They are why we haven't had any wars on this continent since the civil war!

Therefore, I ask you to please do any and everything to stop bill HB4145 dead in its track! The only good anti-gun bill is a dead in its tracks anti-gun bill. You must, as our representatives, do everything you can to keep this bill from moving forward! You must stop this constitutional infringement immediately!

Stop the illegal infringement on our rights, given by God, and the founders of this great country! Be the strong backbone of our constitution, just as past representatives were, all the way back to our founding fathers! Be on the correct, right side of our constitution!

Thank you for your time and consideration.
