I'm writing to urge you to vote yes on HB 4134, 1.25% for wildlife. This bill is critical for the health of wildlife habitat and the health of our economy. I live in Portland, but travel to many different locations in Oregon and contribute to the economy, all to visit and view wildlife. Especially on the coast. And yet so many of the species that I go to see are in danger. Species like tufted puffins and sunflower sea stars. This bill desperately needs to be passed so that we have dedicated funds to protect the wildlife that make Oregon so special, both for Oregonians and for the tourists who come here and spend their dollars. Thank you.
