Measure, Appointment or Topic: HB4145

Why are you trying to pass additional legislation before the Oregon Supreme Court provides the final decision on Measure 114? This will only end up costing the state more money in legal battles. We have bigger issues than this to work through. I understand the Mom's Demand Action groups have a lot of money behind them but you don't always have to bow down to the billionaires. Why give people another reason to vote republican in the mid terms?
