

Submitter: Gary Hartman

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

The result of passing this act adds to your previous laws making it far MORE likely for a shooting incident to occur in Oregon.

Law abiding Oregonians are less and less likely to carry a weapon to protect themselves and others because of the myriad of laws against firearm carry near one after another described facilities, a list that includes all manner of public properties.

These laws have discouraged law abiding gun owners from carrying anywhere.

No lawful person will carry for the fear of being in the wrong area at the wrong time and losing their rights to protection..

And criminally intent people know **THEY WILL BE UNOPPOSED BY ANY LAWFUL PERSON!** They are assured of this by your decisions, which only disarm law abiding Oregonian citizens.

You have watched Portland gain a bad reputation as Riot and Protest events and unlawful car rallies happen in the city regularly due to the lack of law enforcement and sensible protections. A cowardly show of no law enforcement by city officials. You have made endless laws that crush honest people's wishes as Portland stands as a prime example of your decisions.

It is so sad, as Portland used to be a beautiful city, not an example of bad government.
