Measure, Appointment or Topic: HB4134

Please review my testimony as a strong opposition to this bill. The feel is that the Congress believes they are smarter than the people and will decide what is best for us, rights thrown to the side. I don't understand how this can proceed with measure 114 in court. This bill will mainly affect the low income people and strip them of the rights. Some of those people need to protect themselves more than anyone else in the state. They are forced to live in places with the highest crimes and the congress is deciding if they have access to their right afforded to them by our federal and state constitution. Crime rate will rise higher than ever. The policies and bills from this body of government has caused these crime rates and they continue to drive it up. Secondly, It seems like this is another money grab and control by our state politicians. Telling the people they know better than us and we need to fall in line.
