

Submitter: Russell Rodgers
On Behalf Of: Citizens who stand with US Constitution
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

Kopft harassed and intimidated another committee member to get the bill to move along. This should embarrass you for continuing forward with this bill when noone wants to hear about any form of gun legislation when you have harbored illegals in this state, not worked with ICE to remove them and have homeless everywhere on our streets. We have the constitutional right to bear arms and you are trying every way you can to take that right away, regulate it so only the most affluent can benefit and make a political statement that you can do whatever you want. You have already screwed us on 1599, which goes against the constitution and the referendum process and you are all disgusting because you have the same mentality as the representatives who would not show up to the SOTU and/or who would not stand with citizens, but instead side with, support and give freely to illegal aliens. You should be ashamed that citizens are having to combat you about an issue that keeps being brought up so that you can distract us from all the taxes you are trying to levy against us as you steal it to give to illegals and support your fraud. You are done and your time is about up. You have shown that you are anti-Americans and Pro illegal voters. Stand by...the fraud will end, illegals will not be able to vote, Oregon will right itself and we will defend our freedoms and make this state green, clean, healthy and morally outstanding again. If you look around at all of your policies, they have one thing in common...the destruction of a beautiful state when you could have kept it beautiful. Our kids should be able to grow up with people sharing and caring, but instead you have forced chaos by pushing kids to be different, not care for family, military or

Country when that is what we should all have in common. Please vote against this measure and use your common sense; we want protection from the illegals and criminals who have been let into the streets after they do heinous crimes. We want ICE here to send them packing for good and help us right this state that has fallen. Look at the roads and waterways in Salem alone and you will see a depressing disaster with trash, clothing, tents everywhere, but illegals are given food, housing, healthcare and jobs over all these homeless people. You are sick because you go to work every day to screw Americans/Oregonians. We are tired of it and your days are numbered in your current positions. Stop taxing us like we asked, follow the constitution and leave our gun rights alone, fix your progressive mindsets and revert back to America/Oregon first. We the people want Oregon back and even though we have a lot of work to do to make it clean and healthy again; we will do it for our kids and yours too. Vote no on 4145
