

Submitter: Cody Juran

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Good afternoon,

My opposition to this bill is very simple. The bill being proposed is of great concern for citizens like myself. One who sees the Constitutional right to bear arms as legal right to defend their family from harm. As we have seen heavily in Oregon, violence has risen. With the continuation of drugs flooding into our to society we must be able to protect ourselves, our friends, and our family. The Constitution has in place this exact right. Limiting this, whether due to time for a permit, financial, or limitations on capacity of the firearm, infringes upon these rights.

Secondly, a bill that is an obvious infringement should be looked at as waste of of taxpayer money and a betrayal. As representatives, you must support the Constitution. Attempting to pass unlawful bills, which will fail upon review at Supreme Court, is waste of time, tax payer dollars, and trust.

I appreciate your time and highly discourage any support of this bill. If we wish our society to be one of security and safety for our family, we must not allow it to pass. We owe our families and future families this security.

Cody Juran
