

Submitter: Cynthia Bridges  
On Behalf Of: Gun Owners  
Committee: Senate Committee On Rules  
Measure, Appointment or Topic: HB4145

Please vote against this house bill. If your intention is to reduce crime-by-firearm, you should adopt more strict penalties for those who commit gun related crimes. This bill seems to only result in another tax on residents who have already demonstrated to you they are tired of excessive and overreaching taxes. HB 4145 will not reduce crime, it will not punish those who commit crimes, it won't keep towns and cities safer, and it won't stop criminals from access to guns. It should be voted down today....or be referred to an actual ballot vote. Please do your part, in representing citizens outside of Portland, Salem, Eugene and Bend, and vote this down. While you're at it, feel free to also rescind 114 - another violation of our 2nd amendment rights. Thank you.
