

Submitter: Gabriel Buehler

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Requiring a permit to obtain a firearm has been reaffirmed by the Supreme Court of the United States as unconstitutional. What other constitutional amendment requires a permit to exercise it. Nothing. Can you imagine how fundamentally different our country would be if you had to get a permit to exercise freedom of speech.

Background checks are already performed on individuals purchasing a weapon. That is the check not are you deemed worthy to exercise your constitutional, right?

Mandating challenges to this proposed law be only done in Marion County is a gross violation of every principle that this country was founded on. Trying to manipulate the system so that you get a desired outcome from a judge, would cause the founding fathers of this country to roll over in their grave. I urge all lawmakers to vote no on this bill.
