Measure, Appointment or Topic: HB4145

I am tired of being a Tax Payer follower of laws and rules to end up being targeted for it. Im tired of un happy people with nothing better to do but create controversy. Why do we keep having to deal with all of these "bills" that are just different versions with a few words or sentences typed differently. This is a strain on tax Payers, government officials and police agencies. There are already too many people and families that can not afford daily life and this will cause more financial repercussions and redundant paperwork and procedures for all aspects of people and agencies involved. No no no votes please
