

Submitter: Timothy Pierce

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

The second amendment is pretty clear in its wording, "shall not be infringed". Measure 114 is still being evaluated and yet our elected officials continue to waste time and energy which equates into money on an attempt to undermine the constitutional rights of its citizens. This bill and measure 114 will only effect law abiding citizens and not the criminals who already possess weapons illegally in the first place.

Our state should focus more on our budget issues and what they can do to better support our law enforcement and it's citizens. Until Oregon can get its act together, I believe elected officials time should be better spent on other things rather than attacking the fundamental rights of its citizens
