On Behalf Of:  
Committee: Senate Committee On Rules  
Measure, Appointment or Topic: HB4145

In regards to 4145

Im opposed to this bill. I will be directly impacted by this bill it is a complete violation of my rights.

It should have never made it, specifically do to the unethical and unjust behavior in our court house just days ago. We all sign documents in the state of oregon on harrasment in the work place. Knopf should be let go from all polical affiliation in oregon. If I am being held accountable by the state, than the state should hold its officers to the same law a normal citizen is, actually a higherlevel in reality yet its being ignored and a bill is still on the table because of this unlawful actions by knopf. The behavior demonsrated by the democrats and Knopf is a violation of the judicial system. A complete disregard to law itself. These people should be held to the highest level of integrity, instead it gets brushed under the rug as if theres nothing to see here, its disgusting. Any member who sat idoly by and saw this abuse of position and did not file a complaint should be removed from office. We pay these people to do a job that is not being done, and now they are breaking laws to to pass a judgement that the people are highly opposed to with a unfair vote that was made with bias and cohersion right infront of you. I am beyond upset and tired of the system bending/ignoring rules and laws to get their adgenda passed. I have lost faith in the system, a system thats supposed to give me faith in justice. Justice cannot be served with people who lie, cover up and loophole the system. I ask you to drop the bill and hold accountable everyone involved in passing a bill that wasnt going to pass before rules/laws were broken.

Thank you

Mindy Velarde
