

Submitter: Billy Outlaw  
On Behalf Of: myself and all Oregonians  
Committee: Senate Committee On Rules  
Measure, Appointment or Topic: HB4145

To everyone that will look at these testimonies, I strongly urge you to get rid of HB4145. This should never even have made it through the house to begin with, it took strong arming and coercion to even get to this point, and nothing in this bill will do anything to make Oregonians safer, in fact if anything it makes us LESS safe. Thank you for your understanding in this concerning matter.
