

Submitter: Caleb Farmer

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I continue to oppose both the spirit and letter of HB4145 and Measure 114 which it expands upon as both directly oppose to the spirit and letter of the second amendment to the bill of rights. Requiring permission from government to purchase or possess arms is entirely nonsensical in the context of the individual American's right and mandate to ensure the security of themselves and that of a free state from all enemies, foreign and domestic. Listen to the people, not the billionaire lobbies.
Vote no on 4145
