Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Once again here we testifying for gun legislation that will only affect law abiding gun owners. HB 4145 should have not even made it to the senate after Rep. Jason Kropf's treatment of Rep. Tran in the judiciary committee. This is clearly fruit of a poison tree and needs to be thrown out. The way Rep. Kropf went about this whole bill is a disgrace with no regard to proper procedure. Vote this bill down go back to the drawing board and give us actual common sense legislation instead of over zealous oppression.
