Measure, Appointment or Topic:

HB4145

Hello,

As a life long liberal and democrat, I must speak out against this bill for many reasons. As most of us are, I'm very concerned with many political actions being taken by both parties. Gun violence is tragic and must be limited, however this approach largely affects members of society who are responsible, who care about personal freedom, who uphold laws, and love America. I certainly understand the complicated arena this bill lives in, though limiting capacity (including language that could make many firearms illegal), increasing fees, and longer wait times are troubling. Two of those three were recently added without public approval.

Thank you,

A concerned citizen
