

Submitter: June Saragosa
On Behalf Of: Rachelle Box
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

Hello, I am Rachelle Box from Cave Junction. I have given permission to my sister-in-law to post my testimony that I deeply oppose of HB 4145. We are a family of law-abiding Oregonians and responsible gun owners. We teach our kids gun safety, and this bill will infringe on their 2nd amendment rights when they grow up wanting to own a firearm and have a permit to carry. Time and time again, the laws pass by this legislation does not protect us Oregonians, but the criminals that are roaming the streets. Rather this bill passes or not, criminals do not care because they know they are above the law and it feels like as elected officials are the same. So, should we call you then criminals for allowing this to happen? This bill should have died but because of corruptness where one of your colleagues bullied and harassed another to get his way. A car accident that happened in Tigard made global headlines in an Australian news outlet. How long will it take for the corrupt activities surrounding the work session to make a global headline in other countries? Is this the kind of democracy we live in nowadays? The law-abiding gun owners are suppressed while criminals run wild get guns illegally and using them illegally.
