

Submitter: Darci Heroy

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Please value the safety of our children over the ease of obtaining deadly weapons. The right to bear arms does not supersede the rights of our children and families to be safe in their communities. If people want the responsibility of having guns they should also accept the responsibility of doing so safely. The 2nd amendment is not an unlimited free pass.
