I am writing this to show strong opposition of this house bill. This is an unconstitutional law that only targets legal gun owners and does absolutely nothing to stop criminal activity with a firearm... When have criminals ever followed the law? If that was the case we wouldn't have these problems. There is zero proof this will be effective and lowering gun violence, this is simply people with zero firearms education reacting emotionally... If you are fired with firearms carrying more than 10 rounds why can't legal gun owners be afforded that same right? Most of us are more proficient with our firearms than law enforcement anyway. Stop taking away our rights using fear mongering....
