

Submitter: Henry Ladd

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I don't believe this is going to help make Oregon a safer place. Mental health in Oregon has been an issue for decades I think it's time to focus on the people and not begin to infringe upon legal gun owners rights. This will not stop criminal gun activity as they don't use the legal system or follow its requirements thus making it less safe by restricting responsible CCL to less rounds. Also not taking in the decades of previously attained totally legal magazines that I have I won't be able to use and I will have to purchase "legal" magazines? Absolutely ridiculous. How about the government pays for them instead if you wish for me to change. And making me jump through hoops to obtain more guns when I have already clearly passed the "test" many many times will help how? Human character is yet to be held to any sort of account in this day and age and I am an upstanding citizen who knows my rights and freedoms and will not allow anyone to infringe upon them. Please undo this bill in its entirety! How about do something about the homeless problem? Been so long watching nothing happen while I've been legally shooting and owning guns.
