Measure, Appointment or Topic: HB4145

Dear Senator Jama,

I am writing to express my urgent concerns regarding HB 4145. Many members of the public feel that our voices have not been fairly heard and that the House Committee Hearing was not conducted justly.

It is imperative that we are granted a fair public hearing with sufficient notice, allowing working Oregonians the time necessary to prepare and schedule their participation. The manner in which this bill has proceeded through the House is deeply concerning and lacks the transparency we expect from our state leadership.

I respectfully request that you acknowledge these concerns and ensure that the people of Oregon are given a meaningful opportunity to be heard on this matter.

Respectfully,
