

Submitter: Jeff Parmele

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I strongly oppose HB4145. This puts citizens at risk in many ways. It restricts the civil liberties of everyone especially low income and people who live in higher crime areas. Increasing the cost to purchase firearms by adding extra fees (also seen by many as more taxes) will put people outside their budget to afford purchasing. This is unacceptable and I see it as a government bullying all their constituents, poor constituents. It also creates a gun registry with the FBI along with everyone's fingerprints. This is already against the law. So essentially this Bill is literally breaking federal law.
