

Submitter: Gregory Smith

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

The Federal Government has a background check requirement prior to being able to purchase a firearm already in existence.

The attempt to require the State of Oregon to be able to subjectively approve or disapprove a permit at the state level for someone to be able to purchase a firearm is a violation of the 2nd Amendment rights granted under the US Constitution.
