Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

HB 4145 is legislature that is designed to further alienate working and marginalized people and tells oregonians that the police will always take precedent over them in a time where police should NOT be being given special treatment. In addition, the increase in fees and wait times puts people's lives at risk. Stalking and harassment victims may not have this window of time to get their permit to purchase or the expendable money, and groups that are typically marginalized risk losing access to exercise their second amendment rights in cases of bias from police departments anyways.
