Senate Committee On Rules

Measure, Appointment or Topic:

HB4145

If a permit is required to exercise our second amendment right. A right by the way that is in both the state and federal constitutions. Will the next stepp be requirement of a permit to use your right to free speech? Or a permit to be able to invoke the 5th amendment? Requirement of a permit in regards to gun ownership only hinders the law abiding citizens that just want to be able to defend themselves and loved ones, hunt and sport shooting. The criminals won't get this permit. The criminals won't obey gun laws so how is this bill going to do anything except put our fellow Oregonians at the mercy of criminals that don't even care about the law. Please do not push this bill forward. Punish criminals not law abiding citizens.
